A Message FROM THE CEO

The Greater Federal Way Chamber's commitment to data-informed leadership and strategic planning continues with the 2025 edition of *Sector Data for Economic Growth*. This publication is designed to equip our business community as well as civic and community leaders with intelligence on the local and regional economy.

Rebecca Martin, CCE, IOM
Greater Federal Way
Chamber CEO

The Report highlights both the resilience and the evolving dynamics of our key and high-growth industry sectors. From Aerospace and Agribusiness to Information and Communication Technology (ICT) and Life Sciences, we have analyzed each sector's workforce footprint, average wages, and projected growth. The data tells a nuanced story: while sectors like ICT and Business Services show promising growth trajectories, others such as Retail & Accommodation and Life Sciences signal areas for collaborative reinvestment and innovation.

Our economic overview also includes a snapshot of Federal Way's demographics, labor force, housing trends, and wage flows. These indicators reflect a city in transition—with a median household income of \$82,144, a labor force of over 51,000, and a population that remains stable at just over 105,000 residents. This comprehensive view allows us to identify gaps, recognize opportunities, and advocate for solutions that benefit both employers and employees.

Importantly, this publication is not just a collection of statistics. It is a call to action. The 2025 data demonstrates how targeted investment and strategic partnerships are key to sustaining momentum in critical industries while fostering new ones. Whether it's nurturing the next generation of aerospace engineers, expanding healthcare access, or reimagining workforce development, your Chamber stands ready to convene, facilitate, and lead.

Thank you to all the businesses that contribute to the dynamic economy of Federal Way. We invite you to use this data to inform your decisions, fuel your innovation, and grow our region.

Together, we *Take the Federal Way* to success.

METHODOLOGY

This report includes totalling 91,705 data points from 30 measures, collected from 2 public sources (described below). We also estimated 0 data points based on our estimation and projection methodology. Some of the summary data included in the report may not include suppressed data. Data suppression occurs in cases where private, identifying information would be disclosed. In most cases, this does not impact the total values presented in the report, but in cases where there are small industries or areas, data suppressions may reduce the accuracy of the data we can display.
